

NEWS RELEASE

September 1, 2013

The West Houston Airport announced today that a new 10,925 square foot hangar is being constructed on Tract G-8 by David Wright.

Mr. Wright, who is a licensed pilot, is building the hangar using Steel Buildings of Texas as contractor and expects to open by the end of the year. The hangar will be available for rent to plane owners utilizing the West Houston Airport.

The West Houston Airport is located in close proximity to Houston's Energy Corridor, Memorial City, the Galleria, and Downtown. The Airport has been providing service to the Houston Community since 1962 and is open 24/7/365. For information about the West Houston Airport, contact Stacy Lesikar Martin at 281-492-2130 or stacy@westhoustonairport.com.
